

1. Our family listens to K-LOVE on 91.3 FM. This station provides Contemporary Christian music that daily inspires each family member.
2. If K-LOVE were to be replaced by an LPFM station that provided other programming, we would lose a great source of important inspiration to the community.
3. The service K-LOVE provides is in the public interest because the programming provides uplifting, thought-producing, soul-searching music that allows each individual to evaluate themselves and better themselves.
